

Specification change of current sensor for Energy Measuring Unit

We would like to inform that we will change the specification of current sensor for Energy Measuring Unit.

1. Type

Split-type current sensor: EMU-CT600-A

2. Content of change

The operating temperature range when complying with UL standards will change as follow.

Before: -5°C to +55°C

After: -5°C to +50°C

3. Reason for change

Due to the review of the test content in the UL certification test for current sensors.

4. Time of change

From production in March 2024.

Please bear in mind that the exact start of production may change due to stock condition.
